

Here Comes The Sun!

“It is not necessary to change. Survival is not mandatory.”
W Edwards Deming

WE ARE THE SUN

CIRCLES ... DISCS: SUN, ENERGY,
MOBILITY, WHEELS

FOUR WHEELS THAT DRIVE MOVEMENT

THE NEW CORPORATE IDENTITY

For more than 30 years, the Apollo Tyres brand has been depicted across thousands of tyre stores, various communication media and on our tyres, in a certain way. The red disc logo depicting the unending road and the manner in which “Apollo Tyres” was written.

This depiction, or -- as we formally call it -- the identity, has served us gallantly through our journey of becoming India’s leading tyre brand.

As we embark upon the next leg of our journey in evolving into a global tyre brand of choice, we asked ourselves whether this identity is robust enough to serve us for the next 30 years. Some serious introspection indicated that the Apollo we desired to create from Madrid to Melbourne via Mumbai, needed to be refreshed. Or simply put: we needed a new identity.

An identity that is simple, bold and timeless. Conveying an Apollo that is global, confident, modern and relevant. But different. We want to stand out from others. After all, we are not like them. We are young, ambitious, Indian and proud of it. We wish to project our internal reality to the world at large, inviting the outside into our space.

Therefore, we decided to introduce a bit of colour, wit and fun into the representation of Apollo.

Sold in a bright, warm and friendly environment. For a world that should be rid of all its gloom and pseudo-seriousness into one of happiness, sharing, caring and the sheer joy of motoring.

Basically, the simple circle is one of the most

apollo

apollo

powerful forms in the universe. It stands for energy, motion, life and space. The circle is also the wheel. Four wheels, a vehicle. It is these four wheels that create the new Apollo logo. An identity which is in sync with who we are and what we make.

For the colours of our new identity, we take inspiration from the colours of the sunrise and the sunset -- when the world is at its resplendent best. And of course the fact that we make black tyres.

Hence, the new colours of our identity are:

Black for precision

Purple for premiumness

Orange for energy

Light grey for industriousness and

White for purity

These five colours comprise the coloured circles we will be using. Along with the Apollo logo, they depict a high technology, quality tyre, built and sold by a team of dynamic and friendly people.

The new identity is being rolled out gradually over the next 12 months. The Apollo team is confident that the new identity best depicts the ethos and ambitions of the team. We hope to continue to create many safe and happy experiences for vehicle owners across the world.

Enjoy the ride with us!

At Apollo, we make tyres engineered par excellence. For every individual on the street.

About Apollo Tyres Ltd

Apollo Tyres Ltd is a high-performance company and the leading Indian tyre manufacturer. It is built around the core principles of creating stakeholder value through reliability in its products and dependability in its relationships. The company has four manufacturing units in India, four in Southern Africa and one in the Netherlands. Apollo's subsidiary companies are Apollo Tyres South Africa Pty Ltd (previously known as Dunlop Tyres) and Apollo Vredestein BV in the Netherlands. India, South Africa and Europe are the company's three domestic markets from where products are exported to over 70 countries. In each of the domestic markets the company operates through a vast network of branded, exclusive and multi-product outlets.
