

AMAZER 3G MAXX

Extra Grip. Always.

01. Asymmetrical tread pattern for greater grip on all roads and a well-designed, smooth sidewall, with a serrated background for improve aesthetics
02. Rugged block in outer shoulder with Z-shaped slips for high-speed cornering and better manoeuvring on dry roads
03. Stiffness-optimised centre ribs with effective sipes for a safer drive in wet conditions
04. Reduced rolling resistance and lesser fuel consumption due to new generation design and technology
