SPEEDY SEVEN

Caterham's hardcore worship towards the Lotus Seven has over the years yielded some of the best tuned kit cars ever made

Edition 36 of a special series by
APOLLO TYRES

RS Performance:

Caterham 7 along with RS Performance built the Caterham RS Performance – the most powerful Caterham ever! This mind boggling 500+ horse power sportscar comes with a 2.4-litre, 40 valve RST-V8 supercharged engine mated to a six-speed sequential paddle shift option. It can reach three digit speeds in less than three seconds and go up to 240km/h (restricted). Due to the car's awesome and incredibly high performance, the company offers a two-day driver's training course for buyers.

Academy

Academy is one of the most interesting Caterhams ever built. The Academy is available only for those who want to enter motorsports for the first time and need a vehicle apt for the job. With the Academy, the customer gets a racing license, entry for the racing season, technical support for it and most importantly, the road legal Caterham 7! Powered with the 1.6 litre engine producing 125 horse power, this is the perfect racing machine which introduces the enthusiast to motorsports!

CSR

The Caterham 7 CSR, the factory-built-only sports car, is the latest evolution of the Seven design. The CSR is an unbelievable package of quick, fast and a superbly handling racetrack vehicle. The 2.3 litre Ford Duratec engine comes in two states of tune – one producing 200bhp and the other 260 bhp. Everything that goes into the CSR is made to make the car a brilliant offering on the track. Some unofficial tests have even proved that the CSR is one of the fastest production cars around the racetrack ever made.

Roadsport

The Caterham for touring – Roadsport, is the perfect mixture for those who want the power and handling of a sports car coupled with features to make their long journey an enjoyable one. With heater, hood, full windscreen, weather equipment and a carpeted interior, this Caterham 7 makes for a great tourer. The optional SV Chassis gives more space for interiors as well as for carrying more luggage. Available in three variants with engine options of the 1.6 litre Ford Sigma producing 125bhp and 150bhp as well as the 175bhp 2.0L Duratec motor, this Roadsport is an apt tool both on and off the racetrack.

Classic

The Classic, an entry-level Caterham 7, is considered as one of the purest form of the legendary British sports car. The Classic gives one the authentic and raw driving excitement. The 1.4 litre K-Series engine powering the Classic produces over a 100 horse power and propels it to 100km/h in 6.5 seconds. With top speed of over 175 km/h this entry level Caterham with its wonderful handling is sure to give one the thrills of the track and the pleasure of road-use!

R500 Superlight

R500, the top-end model of the Superlight Series, takes the performance of the Caterhams to a new level. This sports car powered with the 2.0 litre mill produces a maximum of 263 bhp making it one of the most powerful Caterhams. The secret behind this highly powered Caterham is its ultra light weight. Stripped to the bare essentials, all the unnecessary comforts have been removed to save weight and reduce mass. The good results of weight saving show in the car's 0 - 100km/h sprint timing of just 2.88 seconds! The R500 is a result of the 20 year expertise in motorsports that Caterham has gained through their one make races across the globe.
